We do not require or need you to be present for your service. Complete checklist items prior to your service to avoid incurring fees or rescheduling of service. If you wish for us to remove some of the items on the checklist simply skip that step and we will remove those items during service.

Spring (Install)

- Access to panels (unlock garage or shed if needed)
- Provide access to batteries, extension cords, and/or canopy if you choose to have us install them.

Fall (Removal)

- Remove canopy from lift with boat still on
- Remove boat from lift and raise lift out of water
- Remove any batteries, extension cords, or kayaks
- Remove weed roller/ aqua thruster
- Provide access to panel storage location (if in locked shed/garage)
- Be mindful of any new branches or overhead obstructions that may be in the way when removing your boat lift(s).
- Remove any zip ties on panels
